**Subject:** Fw: 12/17/15 is the release date for HEI's ACES Executive Summary  
**Attachments:** HEI ACES Executive Summary December 2015.pdf

Hi All,

Speaking of ACES, I just received this. Some of you may have received it as well, but I wanted to make sure the whole group has it.

Jason

**Subject:** 12/17/15 is the release date for HEI's ACES Executive Summary

Hi All,

It looks like HEI has not scheduled a sponsors briefing. Please let me know if anyone would like me to request one for EPA.

Regards,  
Sherri

**Subject:** Advance Notice of HEI's ACES Executive Summary of New Technology Diesel Emissions and Effects

Dear HEI Sponsors:

We are pleased to give you advance notice and share a copy of the new *Executive Summary* of the *Advanced Collaborative Emissions Study (ACES)* which will be published at [www.healtheffects.org](http://www.healtheffects.org) next Thursday, December 17, 2015. As you know, ACES is the most comprehensive examination done to date of the emissions and health effects of new technology heavy duty diesel engines meeting the US 2007 and 2010 on-road standards – and the results demonstrate the dramatic improvements in emissions and the absence of any significant health effects (especially cancer). This new Executive Summary presents – in concise summary and with new graphics – the main findings of all three phases of the project. It *also* places the results in the context of health risk assessment, noting that “the overall toxicity of exhaust from modern diesel engines is significantly decreased compared with the toxicity of emissions from traditional-technology diesel engines.”

Given that we had provided sponsor briefings for each of the three phases of the ACES project, we were not planning a detailed sponsor briefing for this Summary... We would, however, be glad to arrange such a briefing if you would like one. More importantly, we very much see this publication as a beginning, not an end, to communicating the ACES results to broader science and policy audiences, and would welcome your ideas on venues and audiences where that might be helpful.

Please let us know if you have any questions and/or would like a briefing. And thanks for your continued interest in and support of HEI!

Best  
Dan
